Assignment: Celebrating Mother's Day

Dear Students,

Mother's Day is a special day to celebrate and honor our mothers or special women in our lives who care for us. This assignment is all about showing love and appreciation to them.

Activities:

1. Create a Handmade Card:

- Use colored paper, crayons, or markers to make a special card for your mom or another special woman in your life.
- Write a heartfelt message inside. Think about what you love about her or thank her for something she does for you.

2. Draw a Picture:

- Draw a picture of a fun memory you have with your mom.
- You can add some words describing the memory underneath the drawing.

Questions to Discuss with Family:

1. What makes your mom special to you?

- Think of specific examples, such as things she does for you or funny moments you've shared together.

2. How can you show appreciation to your mom every day, not just on Mother's Day?

- Discuss small actions or words that can make her feel appreciated regularly.

Reflection:

- Write a few sentences about what you learned by doing these activities.
- Share how it felt to do something special for your mom.

Parent/Guardian Note:

Please assist your child with the activities where needed and engage in the discussions to help them understand the importance of Mother's Day. This can enhance their understanding and strengthen family bonds.

Enjoy creating wonderful memories!
