

Visuals

Slide 1: Title Slide

- Visual: A colorful, large number '4' made out of various smaller objects (e.g., apples, books, stars).
- Caption: "Exploring the World of Number 4!"
- Description: Introduce the topic with a vibrant image that captures students' attention.

Slide 2: Introduction to the Number 4

- Visual: A set of four balloons in different colors.
- Caption: "What is the Number 4?"
- Description: Explain that the number four is represented by these balloons and can be found in numerous everyday objects.

Slide 3: Counting to 4

- Visual: Four fingers being held up on a hand image.
- Caption: "Counting with Our Fingers"
- Description: Show students how to use their fingers to count to four.

Slide 4: Real-life Examples of 4

- Visual 1: Four chairs around a table.
- Visual 2: Four wheels on a car.
- Caption: "Where Can We See 4?"
- Description: Use real-world examples to help students recognize and relate to the number four.

Slide 5: Shapes with 4 Sides

- Visual: A colorful square and rectangle.
- Caption: "Shapes with 4 Sides"
- Description: Discuss how shapes like squares and rectangles have four sides and four corners.

Slide 6: Addition Equations with 4

- Visual: Illustrated equation (e.g., $2+2 = 4$, $3+1 = 4$).
- Caption: "Adding Up to 4"
- Description: Teach students simple addition problems that result in four.

Slide 7: Subtraction Examples with 4

- Visual: Illustrated equation (e.g., $4-1 = 3$).
- Caption: "Taking Away from 4"
- Description: Examples of subtraction problems starting with the number four.

Slide 8: Fun Activity

- Visual: A worksheet design with different sets of four items (e.g., four flowers, four ducks).

- Caption: "Let's Find the 4s!"

- Description: An activity where students circle groups of four in various images. This can be part of an interactive class exercise.

Slide 9: The Story of 4

- Visual: Cartoon character named "Fab Four," going on an adventure collecting four items (e.g., four cookies, four books).

- Caption: "The Adventure of Fab Four"

- Description: Narrate a short story where the character encounters the number four in different contexts.

Slide 10: Recap and Review

- Visual: A colorful summary chart showing images from the previous slides and the number '4'.

- Caption: "What Have We Learned About 4?"

- Description: A summary of what was covered, reinforcing concepts and encouraging students to share what they learned.
